Summary

A passionate, 20-year-old, student at Aberystwyth University pursuing my BSc in Computer Science and AI. In addition to my goal-orientation and hard work, I certainly believe my enhanced skills and motivation are useful for the work field. Eager to begin work within the Computer Science field and gain experience.

Education

BSc Computer Science and AI
Aberystwyth University

2019 - 2022

BTEC Computer Science
Dallam Sixth Form

CS50 Introduction to Computer Science (Ongoing)
Harvard (Online Course)

Experience

Software Engineering

University Module (CS22120)

- Consisted of working in a team, simulating real-life work experience.
- Each member had received a different role, with my role being the Quality Assurance (QA) Manager. This role consisted of keeping tabs on the meeting minutes, dealing with the GitHub repository, and making sure the code and documentation were clean.
- A grade above 70% was received on this module.

Work Experience

A-Level – Year 13

- Worked within a real estate company as a secretary.
- This job consisted of keeping tabs on leases, and general information within the work field.
- Not very technical, but allowed me to understand and get a grasp on the workplace lifestyle, and allowed for a good opportunity in experiencing a working atmosphere.

Skills

Technical: Html, Java, Python. **Learning:** CSS, JavaScript, React, GitHub, Sass, Firebase, Figma

Alternative Skills: Time Management, Problem Solving, Creativity, Teamwork
